02. Chairman's Letter

Dear fellow shareholders,

On behalf of the Directors, I am pleased to present the results of Plato Income Maximiser Limited (the Company) for the year ended 30 June 2022.

The Company was established to provide shareholders the opportunity to benefit from an actively managed, well-diversified portfolio of Australian equities and a monthly dividend payment. The Company's appointed investment manager, Plato Investment Management Limited (the Manager) is led by Don Hamson. The Manager comprises a team of 20 investment professionals and 5 members of the team hold PhD qualifications.

The Company's investment objectives are to:

- (1) generate annual income (including franking credits) that exceeds the gross income of the Benchmark; and
- (2) outperform (after fees) the Benchmark in total return terms including franking credits over each full investment cycle (typically 3 to 5 years).

We are pleased that the Company, having recently celebrated its 5th anniversary since listing on the ASX, has exceeded both its income and total return objectives for both the year ended 30 June 2022, and also since inception. The Company remains actively positioned to seek superior income and franking returns whilst also being able to allocate to companies that are expected to provide solid capital returns.

The Company's net loss after income tax for the year was \$12,862,000, compared to a profit of \$73,019,000 in the prior corresponding period. This result is largely explained by falls in the ASX in the June 2022 quarter as global inflationary pressures and rising interest rates weighed on markets. The Board is monitoring this closely and will continue to manage the Company's capital appropriately to the prevailing economic conditions.

Dividends

The Company continued to pay monthly dividends during the year, with fully-franked dividends of \$0.0045 per share being paid each month from July 2021 to September 2021, then increased to \$0.005 per share for the months of October 2021 to March 2022. This returned dividends to the level that they were prior to the commencement of the COVID-19 pandemic.

The Company again increased the dividend, to \$0.0055 per share, for the months of April to June 2022, which is the highest level of monthly dividend that the Company has paid since its ASX listing in May 2017, and also paid a special dividend of \$0.0055 per share in May 2022 to mark the Company's 5th anniversary since its listing.

The payment of these dividends is in line with the Board's stated objective to pay regularly monthly dividends from available profits, provided the Company has sufficient reserves and it is permitted by law and within prudent business practices to do so.

A further three fully-franked monthly dividends of \$0.0055 per share have been resolved to be paid for July, August and September 2022, continuing the level of dividends paid in the June 2022 quarter.

Performance

The Company's performance results are reported below. We consider that it is useful to consider performance from three different perspectives:

(a) Investment portfolio performance

The Company's investment portfolio performance shows how the Manager has performed after deducting management fees and costs ¹, as compared to the Company's investment objectives.

Performance as at 30 June 2022 ²	Return	Benchmark	Excess
Total return ³			
- One Year	- 3.2%	- 5.1%	+ 1.9%
- Since Inception (p.a.) ⁴	+ 7.7%	+ 7.5%	+ 0.2%
Income ⁵			
- One Year	+ 7.5%	+ 5.4%	+ 2.1%
- Since Inception (p.a.) ⁴	+ 7.5%	+ 5.2%	+ 2.3%

Please note that the income measure above represents distributed income, not accrued income. For the 2022 financial year total dividends of \$0.0655 per share (including the special dividend) were paid equivalent to distributed income of 7.5% ⁶, exceeding the full year gross yield of the Benchmark by 2.1%. Pleasingly, the Company also exceeded its total performance objective by 1.9% during the year, and exceeds the Benchmark by 0.2% p.a. since inception.

(b) NTA performance

This measure of Company performance shows the movement in the value of the Company's pre-tax Net Tangible Assets (**NTA**) over the year, adjusted for dividends paid. NTA performance includes deductions for management fees, but differs from investment portfolio performance as it also includes the impact of Company administration costs and tax on earnings (including tax on realised gains and other earnings but excluding any provision for tax on unrealised gains, capitalised share issue costs and income tax losses), and excludes the value of the Company's franking credits.

The Company's NTA Performance for the year ended 30 June 2022 was -7.8%. Since inception the NTA performance is +4.0% p.a.

¹ Inclusive of the net impact of GST and Reduced Input Tax Credits.

² Past performance is not a reliable indicator of future performance. Performance is quoted in AUD net of portfolio related fees, costs and taxes.

³ Inclusive of franking credits.

⁴ Annualised from Inception date: 28 April 2017.

⁵ Distributed income including franking.

⁶ Calculated as monthly dividends paid (including franking credits) divided by average month-end share price over the financial year.

(c) TSR performance

Total Shareholder Return (TSR) Performance is a measure of the change in the share price adjusted for any dividends paid during the year. The TSR Performance does not include the value of any franking credits when they are paid to shareholders. TSR Performance can be an important measure as often the share market can trade at a premium or discount to the NTA.

The Company's TSR Performance for the year ended 30 June 2022 was -3.5%. Since inception the TSR performance is +6.6% p.a.

Capital Raising

On 3 November 2021, the Company announced a placement to wholesale investors and Share Purchase Plan (SPP) to existing shareholders comprising:

- a placement to wholesale investors of up to 15% of issued shares at an issue price of \$1.11 per share (based on the value of the Company's pre-tax NTA per share on 2 November 2021); and
- a SPP, following close of the placement, where existing eligible shareholders could purchase up to \$30,000 worth of shares at a price the lower of:
 - \$1.11 per share (being the same price as the placement); and
 - The pre-tax NTA per share on the day the SPP closed.

The placement was completed on 5 November 2021, with 64,264,974 shares being issued on 11 November 2021 at a price of \$1.11 per share for total consideration of \$71,334,000.

The SPP was completed on 29 November 2021, with 61,838,499 shares being issued on 1 December 2021 at a price of \$1.10 per share for total consideration of \$68,025,000.

Thank you for your continued support.

Yours sincerely

Jonathan Trollip, Chairman
19 August 2022

Investment Manager's Report

The Company has appointed the Manager as the investment manager of the Company's investment portfolio.

Investment strategy

The investment strategy used by the Manager is to invest (directly or indirectly) in an actively managed well-diversified Australian equities portfolio predominately comprised of Australian listed securities, which aims to achieve the investment objectives. The Manager implements the investment strategy by investing in the Plato Fund, for which it is also the investment manager.

The Manager employs a disciplined systematic process to take advantage of market inefficiencies to seek to deliver higher levels of income (including franking credits) than the Benchmark.

Investment philosophy

The Manager's philosophy is centred on the belief that markets are complex and less than perfectly efficient. These market inefficiencies are derived from informational, behavioural and structural sources. The Manager believes a disciplined investment process can take advantage of these market inefficiencies to outperform over a market cycle. Some of these sources of return are exploited on a longer-term time horizon and others are extracted on a shorter-term basis.

The Manager believes that an actively managed well-diversified portfolio of securities that is cheaper than, of higher quality than and exhibits better business momentum than the market is likely to outperform standard market benchmarks over the longer term. The Manager considers that there are also shorter-term opportunities to outperform the market and generate additional income around dividend events for individual companies.

Investment process

The Manager's investment process involves extensive research focusing on relative market values, business momentum, the quality of the potential investee entity and the prospect for dividends.

Once an investment idea has been identified, the Manager makes an assessment of the following factors where relevant to the specific security:

- (a) **Value:** the value of each security relative to the market (using a combination of models, including models focussed on earnings, cash flow, dividends or EBITDA);
- (b) **Business Momentum:** broker earnings forecasts and share prices to determine the relative business momentum of companies on the Australian share market;
- (c) **Quality:** firm quality, having regard to a range of factors including but not limited to profitability, earnings quality and the Manager's proprietary red flags quality indicator;
- (d) **Dividend and dividend run-up:** the estimated dividend run-up return of each individual stock in the period leading up to its forecast ex-dividend date, as well as the expected size of that dividend payment (including franking credits) as forecast by the Manager. Historically, the Manager has observed a general tendency for securities to outperform the general market in the period leading up to their ex-dividend date;
- (e) **Dividend Trap Avoidance:** the likelihood of a particular entity reducing its dividend as forecast by the Manager using a number of stock specific factors.

These factors are taken into account in assessing the relative merits of entities to invest in. The Manager takes into consideration these factors, as well as investment risk and liquidity, when

constructing the portfolio. The Manager aims to hold a diversified portfolio of securities that it expects will achieve total returns in excess of, and “generate” more income than, the Benchmark without taking on excessive active portfolio risk. The Manager uses portfolio optimisation software to assist with portfolio construction.

Portfolio optimisation is a quantitative approach that constructs the most efficient combination of securities to satisfy investment objectives whilst balancing expected risk and return. For portfolio construction, individual security weightings, sector weightings and size exposure are determined by taking into account the following internal guidelines at the time of portfolio construction:

Stock weightings	The weighting of a security in the portfolio will not be 5% more or 5% less than the Benchmark weighting.
Sector weightings	Whilst there is no hard limit to relative or absolute sector weightings, the Manager aims to build a portfolio with similar sector weightings to the Benchmark.
Cash exposure	Maximum 10% exposure to cash, although it is the Manager’s intention to be largely fully invested as the Manager does not attempt to time markets, rather preferring to be fully invested as much as is practicable.
Number of positions	The portfolio of the Plato Fund is typically comprised of between 50 and 120 securities that the Manager considers to be consistent with the investment strategy.

The Manager then monitors the portfolio risk, returns and implementation, rebalancing the underlying investment portfolio when necessary to satisfy the investment objectives.

Portfolio performance

As noted in the Chairman’s letter, during the year ended 30 June 2022 the Company exceeded both its income as well as its performance objective in a weak market environment as central banks around the world began the process of raising interest rates to combat high rates of inflation. The investment portfolio returned -3.2%¹ after management fees and distributed a yield of 7.5%² (including franking credits). The Benchmark performance was -5.1% including a gross yield of 5.4%¹ over the same period.

The underlying investment portfolio’s five best contributions to active performance over the last financial year were overweights in South32 (up 41%), Graincorp (up 90%) and Telstra (up 7%) as well as underweight positions in Block (formally Afterpay Touch, which was down >50%) and CSL (down 44%). The largest detractors to active performance were overweights in Ansell (down 47%), JB Hi-fi (down 20%), Charter Hall (down 28%) and Aristocrat Leisure (down 19%) as well as an underweight position in Sydney Airport (up 51%). We outperformed in the Information Technology and Financials sectors but underperformed in the Consumer Discretionary and Utilities sectors. The Company’s investments added 3.2% more franking credits than the S&P/ASX 200 Index over the last financial year.

The S&P/ASX 200 gross dividend yield¹ continued to recover from its fall during FY21 where it paid 4.1% to a level of 5.4% in FY22. The Company was able to distribute income of 7.5%¹, 2.1% above its Benchmark.

¹ Including franking credits.

² Calculated as monthly dividends paid (including franking credits) divided by average month-end share price over the financial year.

There were six off-market buy-backs completed in FY22 – Metcash, Commonwealth Bank, Woolworths, Westpac, JB Hi-fi and Qube. These buybacks enabled PL8 to generate excess income as well as excess total return (including franking credits) for PL8 shareholders.

From an income perspective, the biggest generators of excess dividend income (including franking credits) were active positions in the big three iron ore miners (Fortescue, Rio Tinto and BHP) as well as the big four banks, Woolworths and JB Hi-fi.

The Company's investments remain actively positioned to seek superior income than the Benchmark and our expectation is for a continued strong dividend environment in FY23.

Market commentary

The Australian market was down 5.1%³ over the past year as central banks around the world began the process of raising interest rates to combat high rates of inflation which reached levels not seen for 30 years. The Australian market held up better than most global markets due to its larger weight in commodities which increased as a result of the Ukraine war and its lower weight in growth sectors such as Information Technology which fell along with most longer duration assets as bond yields rose.

During the financial year, the best performing sectors were Utilities and Energy which rose more than 30%. These sectors have benefited from an underinvestment in capacity, particularly during COVID-19 when oil and electricity prices fell dramatically. The worst performing sectors were Information Technology which fell as bond yields rose, and Consumer Discretionary which fell due to concerns about consumer spending dropping given a larger percentage of budgets may need to cover essentials such as food and petrol where prices are rising.

The market also became concerned, particularly in the 2nd quarter of calendar 2022 that the chances of a recession were increasing with the yield curve becoming inverted and central banks becoming more hawkish. However, despite this hawkishness on the prospects for increased interest rates, central bankers remain optimistic that they can engineer a soft landing for the economy given consumers are in strong financial positions and unemployment is at lows not seen for 50 years.

The strong divergence in sector performance during the financial year shows the benefit of holding a diversified portfolio that is forward looking rather than investing in stocks with the highest level of historical income which may lag during particular market cycles.

Sector allocation and top ten holdings

As at 30 June 2022, the underlying investment portfolio consisted of 88 stocks which account for 99.1% of the portfolio. The remaining 0.9% is in cash and cash receivables.

Remuneration Report (Audited)

This report details the nature and amount of remuneration for each director of Plato Income Maximiser Limited in accordance with the Corporations Act. The Company Secretary is remunerated under a service agreement with Pinnacle.

Details of remuneration

The Board from time to time determines the remuneration of Directors within the maximum amount approved by shareholders at the Annual General Meeting. Directors are not entitled to any other remuneration from the Company.

Fees and payments to Directors reflect the demands that are made on them and their responsibilities. The performance of Directors is reviewed annually. The Board determines the remuneration levels and ensures they are competitively set to attract and retain appropriately qualified and experienced Directors.

The maximum total pooled remuneration of the Directors has been set at \$250,000 per annum. Directors do not receive bonuses nor are they issued options on securities as part of their remuneration. Directors' fees cover all main Board activities.

Directors' remuneration is not directly linked to the Company's performance.

The following table outlines key elements of the Company's financial performance since incorporation:

	2022	2021	2020	2019	2018
Operating profit after tax (\$'000)	(12,862)	73,019	(21,054)	34,592	19,098

The Company has no employees and therefore does not have a remuneration policy for employees.

The Directors are the only people considered to be key management personnel of the Company.

Director related entity remuneration

All transactions with related entities are made on normal commercial terms and conditions.

Don Hamson, a Director, and Alex Ihlenfeldt, a former Director, are also directors of the Manager. Alex Ihlenfeldt is also a director of Pinnacle, which provides services to the Company in accordance with the Services Agreement.

The fees payable to the Manager and the Administrator are listed below:

Management fee

In its capacity as investment manager, the Manager is entitled to be paid, and the Company must pay to the Manager, a management fee payable monthly in arrears equivalent to 0.80% per annum (exclusive of GST) of the value of the Company's portfolio calculated daily.

For the year ended 30 June 2022 the Manager was paid a management fee of \$4,581,290, inclusive of unclaimable GST (year ended 30 June 2021: \$3,647,098).

As at 30 June 2022, the balance payable to the Manager was \$386,923 (30 June 2021: \$325,931).

Service fee

The Company has entered into the Services Agreement with Pinnacle for the provision of the following administration support services:

- Middle office portfolio administration;
- Finance, tax and reporting and administration; and
- Legal counsel and company secretarial.

For the year ended 30 June 2022, Pinnacle was paid a fee of \$89,264, inclusive of unclaimable GST (year ended 30 June 2021: \$86,664). As at 30 June 2022, the balance payable was \$22,316 (30 June 2021: \$nil).

Contracts

Other than as stated above, no Director has received, or become entitled to receive, a benefit by reason of a contract made by the Company or a related company with the Director or with a firm of which they are a member or with a company in which they have substantial financial interest since the inception of the Company.

Equity instrument disclosures relating to Directors

During the financial year and as at the date of this report, the Directors and their related parties held the following interests in the Company:

Director	Opening Balance 1 July	Initial Director Interest Notice	Acquisitions	Disposals	Final Director Interest Notice	Closing Balance 30 June	Balance at date of this report
Jonathan Trollip*	95,000	-	27,272	-	-	122,272	122,272

* Held through direct and indirect interests

Directors and Director related entities acquire shares in the Company on the same terms and conditions available to other shareholders.

The Directors have not been granted options over unissued shares or interests in shares of the Company as part of their remuneration during or since the end of the financial year.

End of Remuneration Report

Insurance and indemnification of officers and auditors

During and since the end of the financial year the Company has given an indemnity and has paid premiums to insure each of the Directors against liabilities for costs and expenses incurred by them in defending any legal proceedings arising out of their conduct while acting in the capacity of Director, other than conduct involving a wilful breach of duty in relation to the Company or the improper use by the Directors of their position.

Details of the amount of the premium paid in respect of the insurance policies are not disclosed as the Company is prevented from doing so under the terms of its contract.

No indemnities have been given or insurance premiums paid during or since the end of the financial year, for any person who is or has been an auditor of the Company.

Proceedings on behalf of the Company

No person has applied to the Court under section 237 of the Corporations Act for leave to bring proceedings on behalf of the Company, or to intervene in any proceedings to which the Company is a party, or for the purpose of taking responsibility on behalf of the Company for all or part of those proceedings.

No proceedings have been brought or intervened in on behalf of the Company with leave of the Court under section 237 of the Corporations Act.

Non-audit services

During the year, Pitcher Partners, the Company's auditor, performed other services in addition to their statutory duties for the Company as disclosed in note 14 to the financial statements.

The Board is satisfied that the provision of other services during the year is compatible with the general standard of independence for auditors imposed by the Corporations Act. The Directors are satisfied that the services disclosed in note 14 did not compromise the external auditor's independence for the following reasons:

- all non-audit services are reviewed and approved by the Board prior to commencement to ensure they do not adversely affect the integrity and objectivity of the auditor; and
- the nature of the services provided do not compromise the general principles relating to the auditor independence in accordance with the APES 110 Code of Ethics for Professional Accountants (including Independence Standards) set by the Accounting Professional and Ethical Standards Board.

Auditor's independence declaration

A copy of the auditor's independence declaration as required under section 307C of the Corporations Act is set out on page 27.

Rounding of amounts

In accordance with ASIC Corporations (Rounding in Financial/Directors' Reports) Instrument 2016/191, the amounts in the Directors' report and in the financial statements have been rounded to the nearest one thousand dollars, or in certain cases, to the nearest dollar (where indicated).

This report is made in accordance with a resolution of the Directors.

07. Notes to the Financial Statements

For the year ended 30 June 2022

Note 1

Summary of significant accounting policies

The financial statements were authorised for issue on 19 August 2022 by the Board.

Basis of preparation

These general purpose financial statements have been prepared in accordance with the Corporations Act, Australian Accounting Standards and Interpretations of the Australian Accounting Standards Board. The Company is a “for-profit” entity for financial reporting purposes under Australian Accounting Standards.

Except for cash flow information, the financial statements have been prepared on an accruals basis and are based on historical costs, except for the measurement at fair value of selected financial assets and financial liabilities.

The financial statements of the Company also comply with International Financial Reporting Standards (IFRS) as issued by the International Accounting Standards Board (IASB).

In accordance with ASIC Corporations (Rounding in Financial/Directors’ Reports) Instrument 2016/191, the amounts in the directors’ report and in the financial statements have been rounded to the nearest one thousand dollars, or in certain cases, to the nearest dollar (where indicated).

The presentation currency for these financial statements is Australian dollars.

Material accounting policies adopted in the preparation of the financial statements are presented below. Other than the implementation of new accounting standards noted in 1(n) below, the accounting policies adopted are consistent with the previous year, unless stated otherwise:

(a) Investments

1. Classification

The category of financial assets comprises financial assets designated at fair value through profit and loss. It includes financial assets that are redeemable units in unit funds and their fair value changes are recorded in profit and loss.

2. Recognition and Measurement

Financial assets at fair value through profit and loss are recognised initially at fair value, including transaction costs on trade date at which the Company becomes party to the contractual provisions of the instrument. Subsequent to initial recognition, all financial assets held at fair value through profit or loss are measured at fair value with changes in their fair value recognised in the statement of profit or loss.

3. *Derecognition*

Financial assets are derecognised where the contractual rights to receipt of cash flows expires or the asset is transferred to another party whereby the entity no longer has any significant continuing involvement in the risks and benefits associated with the asset.

4. *Valuation*

All investments are classified and measured at fair value. The Company's managed fund investment is valued based on the redemption price of the units held. Listed investments are valued continuously at fair value, which is determined by the unadjusted last-sale price quoted on the Australian Securities Exchange at the measurement date.

If a quoted market price is not available on a recognised security exchange, the fair value of the instruments are estimated using valuation techniques, which include the use of recent arm's length market transactions, reference to the current fair value of another instrument that is substantially the same, discounted cash flow techniques, option pricing models or any other valuation techniques that provide a reliable estimate of prices obtained in actual market transactions.

(b) Fair value measurement

When a financial asset is measured at fair value for recognition or disclosure purposes, the fair value is based on the price that would be received to sell an asset in an orderly transaction between market participants at the measurement date and assumes that the transaction will take place either in the principal market, or in the absence of a principal market, in the most advantageous market.

Fair value is measured using the assumptions that market participants would use when pricing the asset, assuming they act in their economic best interests. Valuation techniques that are appropriate in the circumstances and for which sufficient data is available to measure fair value are used, maximising the use of relevant observable inputs and minimising the use of unobservable inputs.

Assets measured on a recurring basis at fair value are classified into 3 levels, using a fair value hierarchy that reflects the significance of the inputs used in making the measurements. Classifications are reviewed at each reporting date and transfers between levels are determined based on a reassessment of the lowest level of input that is significant to the fair value measurement. Further information regarding fair value measurements is provided in note 3.

(c) Income and expenditure

Distributions from managed funds are recognised on a present entitlements basis and recognised in the statement of profit or loss on the day the distributions are announced.

Interest income and expenses, including interest income and expenses from non-derivative financial assets, are recognised in the statement of profit or loss as they accrue, using the effective interest method of the instrument calculated at the acquisition date. Interest income includes the amortisation of any discount or premium, transaction costs or other differences between the initial carrying amount of an interest-bearing instrument and its amount at maturity calculated on an effective interest rate basis. Interest income is recognised on a gross basis, including any withholding tax, if any.

All other expenses, including investment management fees, are recognised in the statement of profit or loss on an accruals basis.

(d) Income tax

The income tax expense or benefit for the year is the tax payable on that year's taxable income based on the applicable income tax rate, adjusted by changes in deferred tax assets and liabilities attributable to temporary differences, unused tax losses and the adjustment recognised for prior periods, where applicable.

Deferred tax assets and liabilities are recognised for temporary differences at the tax rates expected to apply when the assets are recovered or liabilities are settled, based on the applicable tax rate.

Deferred tax assets are recognised for deductible temporary differences and unused tax losses only if it is probable that future taxable amounts will be available to utilise those temporary differences and losses.

The carrying amount of recognised and unrecognised deferred tax assets are reviewed each reporting date.

Deferred tax assets recognised are reduced to the extent that it is no longer probable that future taxable profits will be available for the carrying amount to be recovered. Previously unrecognised deferred tax assets are recognised to the extent that it is probable that there are future taxable profits available to recover the asset.

(e) Goods and services tax

Revenues, expenses and assets are recognised net of the amount of GST, unless GST incurred is not recoverable from the Australian Taxation Office. In this case it is recognised as part of the cost of acquisition of the asset or as part of the expense.

Receivables and payables are stated inclusive of the amount of GST receivable or payable. The net amount of GST recoverable from, or payable to, the tax authority is included in other receivables or other payables in the statement of financial position.

Cash flows are presented on a gross basis. The GST components of cash flows arising from investing or financing activities which are recoverable from, or payable to, the tax authority are presented as operating cash flows.

(f) Cash and cash equivalents

Cash includes cash on hand, deposits held at call with financial institutions and other short-term, highly liquid investments with original maturities of three months or less that are readily convertible to known amounts of cash and which are subject to an insignificant risk of changes in value.

(g) Trade and other receivables

Trade and other receivables relate to outstanding settlements as well as accrued income in relation to interest and dividends receivable. Trade receivables are generally due for settlement within 30 days. Details regarding the accounting policy for the impairment of receivables is provided at note(1)(m).

(h) Trade and other payables

These amounts represent liabilities for outstanding settlements as well as services provided to the Company prior to the end of the financial year and which are unpaid. Due to their short-term nature, they are measured at amortised cost and are not discounted. The amounts are unsecured and are usually paid within 30 days of recognition.

(i) Share capital

Ordinary shares are classified as equity. Costs directly attributable to the issue of ordinary shares are recognised as a deduction from equity, net of any tax effects.

(j) Profits reserve

A profits reserve has been created representing an amount allocated from earnings that is preserved for future dividend payments.

(k) Earnings per share

1. Basic earnings per share

Basic earnings per share is calculated by dividing:

- the profit attributable to owners of the Company, excluding any costs of servicing equity other than ordinary shares,
- by the weighted average number of ordinary shares outstanding during the financial period adjusted for bonus elements in ordinary shares issued during the period and excluding treasury shares.

2. (2) Diluted earnings per share

Diluted earnings per share adjusts the figures used in the determination of basic earnings per share to take into account:

- the after income tax effect of interest and other financing costs associated with dilutive potential ordinary shares, and
- the weighted average number of additional ordinary shares that would have been outstanding assuming the conversion of all dilutive potential ordinary shares (e.g. options on issue and in the money).

(l) Operating segments

The Company's investment activities are its only reportable segment. The Company operates from one geographic location, being Australia.

(m) Critical accounting estimates and judgments

The preparation of financial statements requires the use of estimates and judgments which affect the reported amounts of assets and liabilities of the Company. These estimates and judgments are constantly evaluated and are based on historical experience and other factors, including expectations of future events that are believed to be reasonable under the circumstances.

Income taxes

The Company is subject to income taxes in Australia. Significant judgement is required in determining the provision for income taxes. The Company estimates its income taxes based on the Company's understanding of tax law. Where the final tax outcome of these matters is different from the amounts that were initially recorded, such differences will impact the current and deferred tax provisions in the period in which such determination is made. Further information regarding the Company's income tax expense / (benefit) is provided at note 4.

The Company can recognise deferred tax assets relating to carried forward tax losses and deductible timing differences to the extent that it is considered probable that there will be future taxable profits relating to the same taxation authority against which the carried forward tax losses and deductible timing differences will be utilised. Further information regarding the Company's deferred tax assets is provided at note 8.

Allowance for expected credit losses

The allowance for expected credit losses assessment requires a degree of estimation and judgement. It is based on the lifetime expected credit loss, grouped based on days overdue, and makes assumptions to allocate an overall expected credit loss rate for each group of receivables. These assumptions can include historical collection rates, and any forward-looking information that is available. The allowance for expected credit losses is calculated based on the information available at the time of preparation. The actual credit losses in future years may be higher or lower.

(n) New and revised accounting requirements applicable to the current year reporting period

There are no accounting standards, interpretations or amendments to existing standards that were effective from 1 July 2021 that have a material impact on the Company's financial statements.

(o) New and revised accounting requirements not yet mandatory or early adopted

Certain new accounting standards and interpretations have been published that are not mandatory for 30 June 2022 reporting periods and have not been early adopted by the Company. It is not expected that that these new standards and interpretations will have a material impact on the entity in future reporting periods.

Note 2

Financial Risk Management

The Company's activities expose it to a variety of financial risks: market risk (including price risk and interest rate risk), credit risk and liquidity risk, which could affect the Company's future financial performance.

The Board has implemented a risk management framework to mitigate these risks. This includes consideration of compliance and risk management reporting on a quarterly basis to monitor compliance and evaluate risk, and regular reporting from the Manager to ensure ongoing compliance with the investment strategy and investment guidelines. During the financial year, the risk management framework for the Company was reviewed.

The Company holds the following financial instruments, all of which are measured at amortised cost except for financial assets at fair value through profit or loss:

Financial assets	2022 \$'000	2021 \$'000
Cash and cash equivalents	207	866
Trade and other receivables	20,311	1,969
Financial assets at fair value through profit or loss	525,414	483,144
	545,932	485,979
Financial liabilities		
Trade and other payables	519	420
	519	420

(a) Market risk

1. Price risk

Price risk is the risk that changes in market prices will affect the fair value of the financial instrument. The fair value is determined by the redemption price of the managed fund investment at the measurement date.

The Company is exposed to price risk through the movement of the unit price of the managed fund which is exposed to variation of security prices of the companies and trusts in which it is invested. The Manager manages price risk through construction of a diversified portfolio of investments and the careful selection of securities within the Fund.

The market value of the managed fund fluctuates daily and the fair value of the portfolio changes continuously, with this change in the fair value recognised through profit or loss.

Sensitivity

The table below summarises the impact of increases/(decreases) in equity securities prices on the Company's net assets before provision for tax on unrealised capital gains at 30 June 2022. The analysis is based on the assumption that equity securities prices had increased/(decreased) by 10% and 20% with all other variables held constant and the Company's investment moved in correlation with the index.

	Impact on net assets			
	\$'000		NTA per share	
	+/- 10%	+/- 20%	+/- 10%	+/- 20%
2022	52,541/(52,541)	105,083/(105,083)	\$0.09/(\$0.09)	\$0.19/(\$0.19)
2021	48,314/(48,314)	96,629/(96,629)	\$0.11/(\$0.11)	\$0.23/(\$0.23)

2. Interest rate risk

The fair value of other financial instruments is unlikely to be materially affected by a movement in interest rates as they generally have short maturities and variable interest rates.

(b) Credit risk

The Company's credit risk exposures arise from the investment in liquid assets, such as cash and income receivable.

The risk that a financial loss will occur because of a counterparty to a financial instrument failing to discharge an obligation is known as credit risk. The credit risk on the Company's financial assets, excluding investments, is the carrying amount of those assets.

Income receivable comprises accrued interest and distributions which were brought to account on the date the units traded ex-distribution.

There are no financial instruments overdue.

The Company's cash balances are held with a counterparty that has a credit rating of AA- (as determined by Standard and Poor's (S&P)). The clearing and depository operations of the underlying managed fund's security transactions are mainly concentrated with one counterparty which has a credit rating of A-1 with S&P. All financial assets and their recoverability are continuously monitored by the Administrator and reviewed by the board on a quarterly basis.

(c) Liquidity risk

Liquidity risk is the risk that the Company is unable to meet its financial obligations as they fall due.

The Company manages the liquidity risk by monitoring forecast and actual cash-flows.

Maturities of financial liabilities

The table below analyses the Company's financial liabilities into relevant maturity groupings based on their contractual maturities at year end date. The amounts disclosed in the table are the contractual undiscounted cash flows. Balances due within 12 months equal their carrying balances as the impact of discounting is not significant.

Contractual maturities of financial liabilities

Note 3

Fair value measurements

The Company measures and recognises its investments on a recurring basis.

Fair value hierarchy

AASB 13: Fair Value Measurement requires the disclosure of fair value information using a fair value hierarchy reflecting the significance of the inputs in making the measurements. The fair value hierarchy consists of the following levels:

- (a) quoted prices (unadjusted) in active markets for identical assets or liabilities (level 1);
- (b) inputs other than quoted prices included within level 1 that are observable for the asset or liability, either directly (as prices) or indirectly (derived from prices) (level 2); and
- (c) inputs for the asset or liability that are not based on observable market data (unobservable inputs) (level 3).

Recognised fair value measurements

The following table presents the Company's assets and liabilities measured and recognised at fair value.

	Level 1	Level 2	Level 3	Total
	\$'000	\$'000	\$'000	\$'000
Assets				
At 30 June 2022				
Managed funds	-	525,414	-	525,414
Total assets	-	525,414	-	525,414
At 30 June 2021				
Managed funds	-	483,144	-	483,144
Total assets	-	483,144	-	483,144

The investment included in level 2 of the hierarchy is the amount of the investment based on the redemption price of the Plato Fund as at the end of the reporting period.

There were no transfers between levels for recurring fair value measurements during the year.

The Company's policy is to recognise transfers into and transfers out of fair value hierarchy levels as at the end of the reporting year.

The carrying amounts of all financial instruments other than those measured at fair value on a recurring basis are considered to represent a reasonable approximation of their fair values.

(c) Ordinary shares

Ordinary shares entitle the holder to participate in dividends and the proceeds on winding up of the Company in proportion to the number of and amounts paid on the shares held.

On a show of hands every holder of ordinary shares present at a general meeting in person or by proxy is entitled to one vote and upon a poll each share is entitled to one vote.

(d) Options

During the current year and prior year, the Company had no unissued ordinary shares under option.

(e) Capital Raising

On 3 November 2021, the Company announced a placement to wholesale investors and Share Purchase Plan (SPP) to existing shareholders comprising:

- a placement to wholesale investors of up to 15% of issued shares at an issue price of \$1.11 per share (based on the value of the Company's pre-tax NTA per share on 2 November 2021); and
- a SPP, following close of the placement, where existing eligible shareholders could purchase up to \$30,000 worth of shares at a price the lower of:
 - \$1.11 per share (being the same price as the placement); and
 - the pre-tax NTA per share on the day the SPP closed.

The placement was completed on 5 November 2021, with 64,264,974 shares being issued on 11 November 2021 at a price of \$1.11 per share for total consideration of \$71,334,000.

The SPP was completed on 29 November 2021, with 61,838,499 shares being issued on 1 December 2021 at a price of \$1.10 per share for total consideration of \$68,025,000.

(f) Capital management

The Company's objective in managing its capital is to satisfy its aim to provide shareholders with dividend income and total return in excess of the Company's Benchmark. The Company considers its capital to be its issued capital, reserves and accumulated retained earnings.

The Company's capital will fluctuate with market conditions. The Company can manage its capital through the level of dividends paid to shareholders, the issue of shares or the use of share buy-backs.

The Company is an ASX listed investment Company and is subject to ASX listing rule requirements.

Note 15

Related party transactions

All transactions with related parties were made on normal commercial terms and conditions and at market rates.

(a) Investment Management Agreement

Don Hamson, a director of the Company, and Alex Ihlenfeldt, a former director of the Company, are directors of the Manager.

The Company appointed the Manager to act as investment manager of the Company's portfolio under the Investment Management Agreement.

Under the Investment Management Agreement, the Manager must:

- (1) invest money constituted in or available to the Company's portfolio, including money received as a consequence of disposal of investments or any dividend or other distribution received;
- (2) retain investments; and
- (3) realise or dispose of investments.

The initial term of the Investment Management Agreement is 10 years, which will be automatically extended for successive five year periods up to 25 years from the commencement date when it will terminate, unless terminated earlier in accordance with the Investment Management Agreement. The Company may remove the Manager and terminate the agreement after the expiration of the initial term if the shareholders resolve by ordinary resolution that the Manager should be removed as manager of the Company's portfolio, on delivery of three months' prior written notice.

The associated fees payable to the Manager are listed below:

Management fee

In its capacity as investment manager, the Manager is entitled to receive a management fee of 0.80% per annum (exclusive of GST) of the value of the Company's portfolio calculated daily and paid at the end of each month in arrears.

For the year ended 30 June 2022 the Manager was paid a management fee of \$4,581,290, inclusive of unclaimable GST (year ended 30 June 2021: \$3,647,098).

As at 30 June 2022, the balance payable to the Manager was \$386,923 (30 June 2021: \$325,931).

(b) Services Agreement

Alex Ihlenfeldt, a former director of the Company, is also a director of Pinnacle, the Administrator.

The Company has entered into the Services Agreement with Pinnacle for the provision of the following administration support services:

- Middle office portfolio administration;
- Finance, tax and reporting and administration; and
- Legal counsel and company secretarial.

The Company is required to pay Pinnacle a service fee quarterly in arrears for the provision of the services calculated as follows:

- (1) in respect of the first financial year to 30 June 2017 – \$70,000 (exclusive of GST) (Base Retainer); and
- (2) in respect of each subsequent financial year – the Base Retainer calculated for the immediately preceding financial year indexed by 3%.

For the year ended 30 June 2022, Pinnacle was paid a fee of \$89,264, inclusive of unclaimable GST (year ended 30 June 2021: \$86,664). As at 30 June 2022, the balance payable was \$22,316 (30 June 2021: \$nil).

(c) Responsible Entity of Plato Fund

Alex Ihlenfeldt, a former director of the Company, is one of four directors of Pinnacle Fund Services Limited, the responsible entity of the Plato Fund.

Report on the Audit of the Financial Report

Opinion

We have audited the financial report of Plato Income Maximiser Limited ("the Company"), which comprises the statement of financial position as at 30 June 2022, the statement of profit or loss and other comprehensive income, the statement of changes in equity and the statement of cash flows for the year then ended, and notes to the financial statements, including a summary of significant accounting policies, and the directors' declaration.

In our opinion the accompanying the financial report of Plato Income Maximiser Limited is in accordance with the *Corporations Act 2001*, including:

- i. giving a true and fair view of the Company's financial position as at 30 June 2022 and of its financial performance for the year then ended; and
- ii. complying with Australian Accounting Standards and the *Corporations Regulations 2001*.

Basis of Opinion

We conducted our audit in accordance with Australian Auditing Standards. Our responsibilities under those standards are further described in the *Auditor's Responsibilities for the Audit of the Financial Report* section of our report. We are independent of the Company in accordance with auditor independence requirements of the *Corporations Act 2001* and the ethical requirements of the Accounting Professional and Ethical Standards Board's *APES 110 Code of Ethics for Professional Accountants (including Independence Standards)* ("the Code") that are relevant to our audit of the financial report in Australia. We have also fulfilled our other ethical responsibilities in accordance with the Code.

We confirm that the independence declaration required by the *Corporations Act 2001*, which has been given to the Directors of the Company, would be on the same terms if given to the Directors as at the time of this auditor's report.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Key Audit Matters

Key audit matters are those matters that, in our professional judgement, were of most significance in our audit of the financial report of the current year. These matters were addressed in the context of our audit of the financial report as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters.

Key audit matter	How our audit addressed the matter
Existence and Valuation of Financial Assets Refer to Note 3: Fair value measurements, Note 7: Investments and Note 8: Deferred tax assets/liabilities	
<p>We focused our audit effort on the valuation and existence of the Company's investment due to the size of the balance. It also represents the most significant driver of the Company's Net Tangible Assets and Profit.</p> <p>As the Company's sole investment is in an unlisted managed investment scheme, (the Fund), there are judgements involved in determining the fair value on investment.</p> <p>We therefore identified the existence and valuation of the investment as an area of focus.</p> <p>The revaluation of investments poses a further audit focus area in relation to the taxation adjustments.</p>	<p>Our procedures included, amongst others:</p> <ul style="list-style-type: none"> ▪ Obtaining an understanding of and evaluating the design and implementation of the investment management processes and controls; ▪ Verifying the existence of investment holdings by obtaining confirmation from Plato Australian Shares Income Funds' registry; ▪ Obtaining the 30 June 2022 audited accounts of the Plato Australian Shares Income Fund ("the Fund") and performing procedures including: <ul style="list-style-type: none"> - Recalculating Net Asset Value "NAV" and comparing to reported unit price; - Confirming the 30 June 2022 balance of units and movement in units for the class of units and movements in units for the class of units offered to the Company in the Fund; - Considering the appropriateness of the Fund's accounting policies; and - Confirming that the Fund's audit opinion is unmodified. ▪ Evaluating the appropriateness of the accounting treatment of revaluations of financial assets for current/deferred tax and unrealised gains or losses; and ▪ Assessing the adequacy of disclosures in the financial statements.

Other information

The Directors are responsible for the other information. The other information comprises the information in the Company's Annual Report for the year ended 30 June 2022, but does not include the financial report and the auditor's report thereon.

Our opinion on the financial report does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the financial report, our responsibility is to read the other information and, in doing so, consider whether the other information is materially consistent with the financial report or our knowledge obtained in the audit or otherwise appears to be materially misstated.

If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

Responsibilities of the Directors for the Financial Report

The Directors of the Company are responsible for the preparation of the financial report that gives a true and fair view in accordance with Australian Accounting Standards and the *Corporations Act 2001* and for such internal controls as the Directors determine is necessary to enable the preparation of the financial report that gives a true and fair view and is free from material misstatement, whether due to fraud or error.

In preparing the financial report, the Directors are responsible for assessing the ability of the Company to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the Directors either intend to liquidate the Company or to cease operations, or have no realistic alternative but to do so.

Auditor's Responsibilities for the Audit of the Financial Report

Our objectives are to obtain reasonable assurance about whether the financial report as a whole is free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with the Australian Auditing Standards will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of this financial report.

As part of an audit in accordance with the Australian Auditing Standards, we exercise professional judgement and maintain professional scepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the financial report, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Company's internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by the Directors.

- Conclude on the appropriateness of the Directors' use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the financial report or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Company to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the financial report, including the disclosures, and whether the financial report represents the underlying transactions and events in a manner that achieves fair presentation.

We communicate with the Directors regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide the Directors with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

From the matters communicated with the Directors, we determine those matters that were of most significance in the audit of the financial report of the current period and are therefore the key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

Report on the Remuneration Report

Opinion on the Remuneration Report

We have audited the Remuneration Report included in pages 15 to 17 of the Directors' Report for the year ended 30 June 2022. In our opinion, the Remuneration Report of Plato Income Maximiser Limited for the year ended 30 June 2022, complies with section 300A of the *Corporations Act 2001*.

Responsibilities
